The Ecological Choice

If you want to provide a healthy, cost effective, well-designed home for your family while also being mindful of our remarkable environment, then make **the Ecological Choice** with a Bennett Home.

Every **Bennett Home** is crafted to exceed standard building codes and to protect our natural surroundings, providing you with years of comfort, quality, and increasing value.

We've built a great reputation by doing the right thing

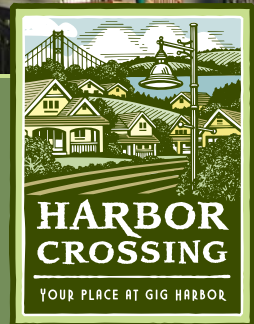

As one of the Northwest's leaders in sustainable building, every custom quality home Bennett constructs is **Built Green** and or **NW Energy Star** certified. Adhering to the strict guidelines of these programs allows Bennett to certify homes with cleaner indoor air, reduced operating costs, and less environmental impact, both during construction and throughout the life of the home.

The Ecological key:

Look for these features in a Bennett Home.

-  Healthy Indoor Air
-  Energy Efficiency
-  Enhanced Savings and Value
-  Water Conservation
-  Environmental Preservation
